

Scifi Weapons

Thank you for buying this model pack.

To use the models, simply drag the prefabs, located in the “Prefabs” folder into your scene.

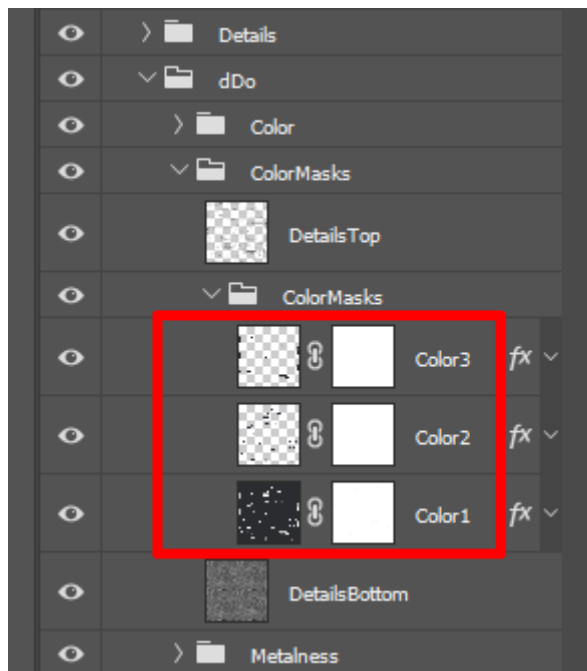

Customization

This pack contains a scifi weapon model with 5 different texture sets, 6 types of ammunition and the following modular equipment: silencer, duckbill, 2 types of ironsights, 2 reflex sights, one scope, 3 picatinny rails, foregrip, 2 flashlights, 2 laser sights, 3 shotgun shell holders

The equipment can be attached to the weapon to customize the loadout.

PSD Source File

The PSD can be used to change the colors of the albedo texture. Use the color masks in the PSD to recolor specific parts of the texture.

Scaling of the models

All models are scaled so that they can be used by a 1.8 unity unit (=meter) tall character.
